Issues discussed in papers included in this volume of Economic and Environmental Studies are miscellaneous. First article by Łukasz Bugowski describes demographic determinants of the regional development in Eastern Poland. Afterwards Anna Piechota identifies differences between group and individual life insurance for employees. Teresa Słaby shows changes in consumption behaviors of Polish seniors-singles in 2007 and 2016. And finally Artur Gorzałczyński presents the production costs structure as a determinant of the deflator of household consumption.
